THE RUG STORY  
BY STEPHANIE BOUDGET

### **The Rug Story by Stephanie Bouquet.**

We create stories in our minds, there's always something behind what we think and how we see things. Ideas are brought together by the possibilities of choice.

Our Collection is simple, but it allows the mind to wander.

5 designs of cut and loop texture, 3 different yarn compositions and 127 colour options.

It starts as one colour, but now the adventure begins.

Why not add another or even 3, how about mixing the yarns, don't want the loop, can I have just the cut pile, where will it end ?

Realise your creation with a CAD image, order a sample, feel the quality, visualise it in your room !

And so the story goes on, a pile of discovery, a cut above, a loop around, a tuft of life !!
